Healing; the Handbook

The amazing success of "Healing; the Handbook", in sharing the processes and possibilities of Regeneration Healing, has created opportunities for people interested in self-healing or building a healing and teaching practice to quickly acquire the skills and confidence necessary.

The effective healing results and life-changing outcomes experienced by many readers has made the "Beyond the Book" workshop a really valuable way to 'jump start' the next step on your healing journey.

The simple yet profound steps in the healing process, which enable the cause to be dealt with so that a client does not have to experience the effects, allow for really good news even from the scariest sounding illnesses. There are also life-effect processes for abundance, weight control and looking younger [our Cosmic Cosmetics!]

The one day workshop covers both the theory and a lot of practical work. At the end of the day you will know that you can 'do this' – use processes for yourself or share them with others. You'll even be able to teach other people! Never

again will you feel helpless when someone you care about is hurting.

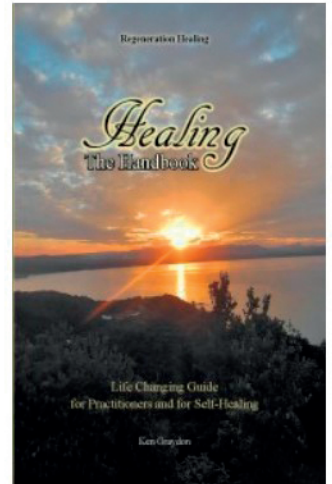

It is essential that you own a copy of "Healing; the Handbook" before attending the workshop. Copies may be ordered from

STORIES FROM READERS.

The Healing book is really magic.

This is a book that needs to be held in your hands so that you feel the power of it, see the violet light that glows from the pages and sense that it is a portal to a place of healing..

I have feelings, but find no words to express. I didn't know that connecting to the Creator was so simple before getting this book

There is a purple light coming off the pages

You're absolutely correct about this! It was only yesterday that I opened my book to begin reading it, and I found such comfort and inspiration in only the first few pages, that upon retiring for the evening, my final thoughts were about how to let Ken know what wonder and light his book is going to spread. And now, this morning..... this discovery has done it all for me! Thank you Ken, thank you all!
